

Dead Bolt Strike

DBR-310FL & DBR-310FS

CDVI Group Products

Range : DiAx®

DBR-310 are ANSI style deadbolt releases and are monitored as standard.

The releases have a "square" jaw which accepts a permanently thrown deadbolt.

On release, the jaw pivots sideways to allow the deadbolt to move out and the jaw will remain in that position until the deadbolt arrives back to move the jaw into the locked position.

DBR-310FL Fail secure, dead bolt strike, 12Vdc, monitored

DBR-310FS Fail safe, dead bolt strike, 12Vdc, monitored

Technical specifications

- **Dimensions:**
150 x 25 x 32 mm
- **Current:**
360mA nominal
- **Operating voltage:**
- 12Vdc

Key features

- *Heavy duty*
- *Standard moulded body*
